Where We Work

Especially in Africa, where HIV/AIDS, grief, and disability are prevalent, INERELA+ networks in the Asian region work closely with a wide range of organizations and networks, including those focusing on human rights, gender, and sexuality. INERELA+ seeks to empower HIV leaders and communities by offering support and resources for the development of sustainable, inclusive, and empowering responses to HIV/AIDS. INERELA+ is a network of organizations working to improve the lives of HIV-positive individuals and their communities.

Our Goal

INERELA+ seeks to empower HIV leaders and communities by offering support and resources for the development of sustainable, inclusive, and empowering responses to HIV/AIDS. INERELA+ is a network of organizations working to improve the lives of HIV-positive individuals and their communities.

Our Mission

INERELA+ is a network of organizations working to improve the lives of HIV-positive individuals and their communities.

Our Vision

INERELA+ is a network of organizations working to improve the lives of HIV-positive individuals and their communities.
